**At PartnerRe we are committed to helping insurance companies, health plan captives and other risk assuming entities manage their healthcare exposure and find the right solutions in today's constantly changing environment.**

Healthcare reform, managed care, disease management, consumer-driven healthcare and other types of medical risk management initiatives have altered traditional products and portfolios.

PartnerRe's comprehensive approach focuses on providing the best risk protection rather than a one-size fits all solution. Utilizing our extensive industry knowledge and unique combination of analysis and innovation, we design risk programs tailored to the exposure and risk-tolerance profiles of our clients. This combination, as well as a belief in the value of long term relationships, produces creative, cost-effective capital management solutions.
