

Specialty Pharmacy Program

PartnerRe brings its clients updates on new and developing specialty pharmaceuticals as well as recommendations to assist in delivering cost savings for these high cost drugs. **PULSE + Plus™** works with its vendors to provide you with collaborative oversight to solve your high-cost pharmaceutical challenges

Facts

- Specialty pharmaceuticals are being approved by the FDA at an accelerating rate.¹
- They have become one of the highest cost items for a healthplan.
- Often these specialty pharmaceuticals can result in an annual spend of \$200,000 or more per member per year.
- Many specialty pharmaceutical costs are “buried” within medical bills and can be difficult to uncover.

1. National Business Group Health Policy Brief

Program Features

- Identify situations where more cost effective sites of administration of high dollar specialty pharmaceuticals maybe available
- Proactive engagement and review of the medical spend on high-dollar drugs
- Sources to validate cost and bring price transparency
- Potential procurement of better specialty pharmaceutical rates
- No fee unless cost savings are realized
- Information and trends on newly approved specialty drugs through webinars, articles and trigger diagnosis lists on specialty pharmaceuticals of unusually high cost or interest
- Locate lower cost pharmacy sourcing for smaller providers such as home care agencies
- Validation of appropriateness of diagnosis and dosage
