

Specialty Medical Insurance/Reinsurance

The healthcare industry is under relentless pressure to improve quality and reduce costs, including legislation focused on improved healthcare risk sharing and financing. As a result, healthcare providers and other risk-assuming entities need to continually reassess how they can best provide quality care in a cost-effective manner.

That's where we can help. Our team has been providing focused risk solutions to the specialty medical field for over 20 years, solutions that are based on excellent underwriting, actuarial and medical management expertise, backed by superior financial strength and risk-management knowledge.

We work with healthcare clients of all types – among them, Accountable Care Organizations (ACOs), insurance exchange health plans, specialty carve-outs and bundled payment providers - to design and implement programs aimed at addressing risk and capitalizing on opportunities arising from ongoing industry changes.

Contact us to explore customized programs suited to your specific needs and coverage that protects you for the long term.
